Labour Market Information for Greater Manchester

The jobs eight out of ten Britons do.....

<https://www.bbc.co.uk/news/election-2019-50345761>

LMI helps provide data, statistics and predictions about present and future trends in the work place.

Why do we need LMI?

- To identify future trends – which types of businesses are doing well or failing (growth areas)
- To provide information about job vacancies
- To inform of the location of job vacancies – Local, Regional and National
- To tell us about the types of vacancies – part-time, full-time, temporary, seasonal or permanent
- To clarify the skills and qualifications required by employers including skills gaps
- To predict wage rates

Why do changes in the labour market take place?

- Labour movement – which can be affected by relocating, immigration and emigration as people move in, out and around the country
- Population – affected by number of workers reaching employment and retirement age, e.g. There were nearly 99,000 16-18 year olds in 2015 in GM. This is forecasted to decrease within the next 5 years by approximately 1,000 (numbers based on national census records)
- New developments – e.g. HS2 (high speed rail). The Governments new commitment to fund up to 1,500 additional student places through medical school from Sept. 2018
- Government policies – e.g. Devolution and the new Northern Powerhouse
- New technology – advances in technology creating new job roles e.g. development of the Social Media Co-Ordinator
