

How St Antony's is meeting the Gatsby Benchmarks

Benchmark	Description
1. A stable careers programme	St Antony's staff follow a published scheme of learning to support their delivery of careers education during careers lessons. This is supplemented by a range of additional internally and externally provided careers activities detailed within our "Careers in the Curriculum" Programme. This is openly available to pupils, parents and employers.
2. Learning from career and labour market information	St Antony's students receive the Further and Higher Education acquaint sessions detailed within our "Careers in the Curriculum" Programme and have access to a regularly updated "Post-16 Pathways" section of the school website.
3. Addressing the needs of each pupil	From Year 7 to Year 11 students receive an annual guidance session with our independent Careers Adviser and follow up sessions can be arranged by request. Labour Market Information informs much of the conversation had by the Careers Adviser and this information is shared here for easy access by students and parents.
4. Linking curriculum learning to careers	Each student will receive regular careers information in all subjects.
5. Encounters with employers and employees	Students will have access to sessions run by our employer and enterprise partners such as Treehouse Hotel. All students will take part in a Mock Interview Day where each is interviewed by an employer who then provides developmental feedback to students. We will also ensure that students are given opportunities to have employer encounters at Careers Fairs, or similar events.
6. Experiences of workplaces	Students will have access to workplace visits run by our employer and enterprise partners. All students will take part in a week of work experience.
7. Encounters with further and higher education	All students will take part in college acquaint days at the appropriate time as dictated by our college partners. Students also receive a pre-application assembly from each of our partner colleges ahead of making their final choices. A number of students are enrolled on the University of Manchester's Gateways Programme which allows learners in Years 7 to 11, who have the ability to progress into HE, and are from backgrounds that are currently under-represented, to participate in a series of academic enrichment and higher education (HE) awareness activities.
8. Personal guidance	Students in Year 9 meet with our Connexions Career Adviser before making their final Key Stage 4 options selection. Each student will then have two further careers meetings across Years 10 and 11 to ensure that each student is well informed ahead of making their final post-16 application. St Antony's works in partnership with Trafford Connexions for the provision of independent careers information, advice and guidance.
