Year 9 Geography Fieldwork *Instructions for the week beginning Monday 1st June*

This week we are learning about Fieldwork

Fieldwork in geography is where you investigate a key question in the local environment.

1. Read the information on this page – you may want to take some notes on this (this is good preparation for GCSE Geography)

<https://www.bbc.co.uk/bitesize/articles/zfgkd6f>

2 Do this quiz

<https://www.bbc.co.uk/bitesize/guides/zqk7nbk/test>

3. Activity 1

Fieldwork at home

What type of fieldwork could you do from your home? Some ideas for fieldwork you can do from your doorstep include investigating traffic or pedestrians on your street or wildlife and nature in your yard, garden or window box. Set your enquiry question and work through the sections of this guide to do your own fieldwork from home. For example – ‘The busiest time of the day for traffic is between 8 am and 9 am’. You could then count the traffic for 15 mins and compare to another time of the day. Just write up a simple plan of what you could do.

Email this work to me e. Kearney@st-antonys.com or submit it through Show My Homework.

4. Optional work -

What if? 	Trivia 
<p>What if all countries in the world used the same currency?</p> <p>What problems would this solve? What benefits would this have? Would it make life easier or harder?</p>	<p>Can you work out the name of city represented by the numbers below. Use the keypad to help</p> <p>1. 27877357 2. 428262 3. 86596 4. 666226 5. 3642 6. 2264565</p>
