St. Antony's Catholic College

Aspire - Believe - Achieve

Year 9 Rocks and Geology

Instructions for the week beginning 22st June 2020

This lesson we are learning about rock landscapes including the characteristics, surface features and underground features of the Yorkshire Dales.

1. Read and watch the videos here:

https://www.bbc.co.uk/bitesize/articles/zppmkty

2. Answer these questions from the resources above:

- What are the aims of National Parks?
- Write out 3 features of the Yorkshire Dales
- What is limestone like?
- What is the difference between stalagmites and stalactites?

You can submit these your answers through Show My Homework or email them to me e.kearney@st-antonys.com

3. Have a go at these rock quiz questions on Seneca Learning
   I have set up a new Y9 class- click on this link to access
